Here are examples of how ALADDIN may pose. For photographs, make the guest the center of attention and the main focus of the photo. Notice the placement of his hands and arms in the examples.

Aladdin is:

- Quick Witted
- Caring
- Heroic
- Adventurous

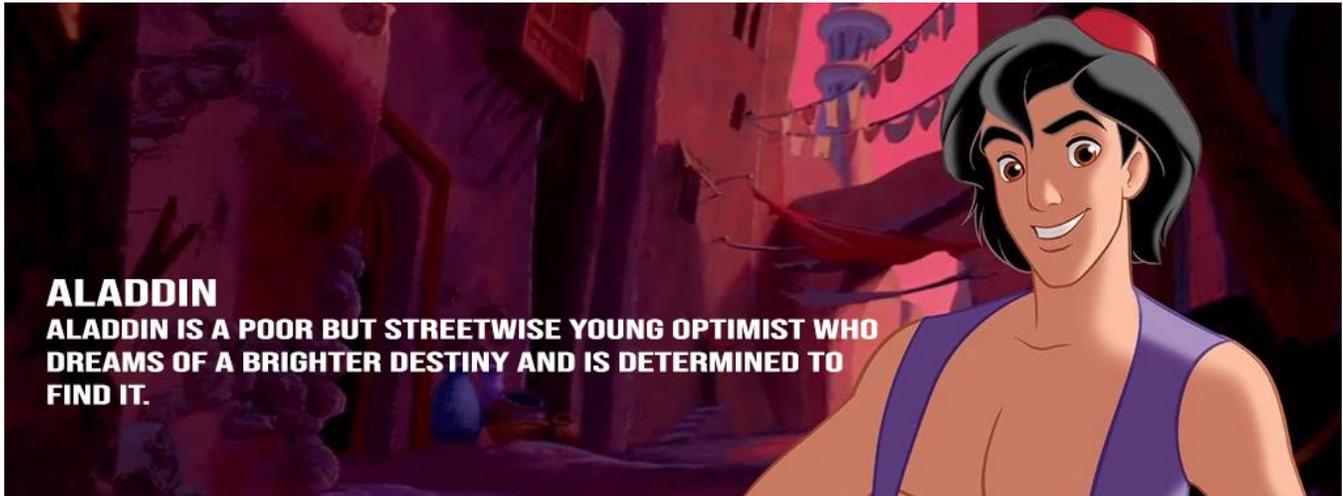

## Characteristics

---

Aladdin was drawn with large eyes, like those of other Disney heroes, to indicate innocence. The lineaments of his body are more free-flowing and more rounded than is usual for Disney heroes. He looks like a modern 18-year-old, except for his wardrobe. In the movie, they often describe him as a street rat.

Aladdin is portrayed as quick-witted, and ultimately a caring person. Like most Disney male protagonists, he is a heroic young man who seeks to win the affection of many other characters, which demonstrates his insecurity. He is not above lying and stealing, though never with malicious intentions, but in order to survive. The biggest difference from the norm is that, unlike most youthful Disney heroes, he is a doer rather than a passive character.
